

Hell: Fact or fiction?

Go to hell!" Have you ever used this phrase in a moment of anger? Did you ever really think about the meaning of what you were saying? Does this place called 'hell' really exist?

It is said that twenty-two years ago, Dr Azzacove, a Russian geologist, also a self-claimed atheist and his colleagues, were drilling through the earth's crust making some experiments. Suddenly the huge drill began to rotate wildly, indicating that they had reached a large empty cavern. Temperature sensors showed a dramatic increase in heat to 2,000 degrees Fahrenheit.

Place of torment and eternal agony

again and their worst suspicions were confirmed. The screams weren't those of a single human, they were the screams of millions of humans!

Whether this is true or not, it is also known that Jacques Costeau, the famous underwater explorer, quit deep sea diving because he heard, in one of the caves he was exploring, the sounds of people screaming. Neither of these men

were Christians, but after hearing what they heard, these men could not continue living as normal.

What explanation can you give for the human screams that were heard? What would human beings be doing in these places and how did they get there?

"The Son of Man shall send forth His angels and they shall gather out of his kingdom all things that offend and them which do iniquity; and shall cast them into a furnace of fire: There shall be wailing and gnashing of teeth." Jesus Christ, Matthew 13:41-42

As you can see the Bible describes hell as a place of torment, constant agony, endless fire, weeping and wailing and gnashing of

teeth. Could the screams be those of people who have died and gone to hell?

Three people die every second, 180 every minute, 259,200 people die every day and since you have started reading this article – 720 people have died. An automobile accident... a heart attack... a stroke... One thing is certain – we will all die – today... tomorrow... a week... a month... a year... 5 years... 20 years... 50 years – One thing is sure – *"It is appointed unto man once to die, but after this the judgment."* Hebrews 9:27

If you have ever been burned, you know how painful it feels, even just a small burn. Can you imagine feeling that pain all over your body for several minutes? Hours? Days? Years? Centuries? Forever? Think about it!

The way out!

The good news is that you don't need to go through this torture! God doesn't want to send you to hell – you choose to reject His words.

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16

Your eternity is in your own hands!

What could that be?

Confused, they lowered a microphone expecting to hear plate movements, but what they heard were human voices.

Assuming that the equipment was faulty, the geologists made several adjustments. They lowered the microphone down

Dr Azzacove says:

"As a communist I don't believe in heaven or the Bible but as a scientist I now believe in hell... we know what we heard and we are absolutely convinced that we drilled through the gates of hell!"
